I slept not little last night. I was so excited about the news from the Arctic. This morn about four o'clock there was a shock of an earthquake. I was awakened but did not know what it was. Monday Mrs Owen Mrs McKee and Miss Beattie  
 called early this morn. Mrs Owen was  
 almost crazy with excitement. Mr Ellis  
 sent her word yesterday morn that  
 her husband was coming; afterwards  
 she heard the ship was anchored in  
 the harbor. She sat up most all night  
 expecting her husband but he did not  
 come. This morn she heard the ship  
 had arrived but her husband did not  
 come, and she knew not what to  
 think, but she told her the ship had  
 not arrived, but had been spoken  
 out long ago all well, so she went  
 home comforted.

Tuesday The Schooner from Honolulu arrives yesterday.  
 I recd from Father and a picture  
 of Mrs Herbert and the baby.

Aug 19<sup>th</sup> A long time has elapsed since I last  
 attempted to write in this book. My time  
 was so fully occupied that I found but  
 little time to write and this time I  
 occupied in letter writing now that we  
 are again at sea shall try to write  
 daily. We came on board at two o'clock  
 yesterday P.M. The tug Neptune took  
 us outside the Golden Gate, and with  
 a light breeze we have since been  
 steadily going our destined way. We  
 have Mr Rice for Mate. Mr Coffey is the  
 third Mate acting as Second Mate until  
 we get to Honolulu in the Spring when  
 we expect to have Mr Barrett for Sec. Mate.  
 Mr [unclear] for fourth acting as third, a new  
 steerman who is lying in his berth drunk,  
 also a new cook and stewardess.

- I have spent the day jacking away  
and feel very tired yet have not really  
got through. Expected today fix it on bus  
so we can use our new Spring Mattress.  
Weds 21<sup>st</sup> Still have pleasant weather but the  
frost being off we will about consider it  
Sat 33. 40 I have been jacking all day here nearly  
finished. Steward came out and took  
Lug 12. 25<sup>1</sup> some bread for supper and went back  
to bed. again is not quite recovered  
from his drunken frolic. Saw for back  
today, hope soon to see something better  
One of the new boatswains sent me  
two dozen nice Apples last night  
I had a beautiful present from Capt.  
Whelden of the Line Boat. before leaving  
P. M. a Silver Irish Knife. Fruit Knife  
and jelly spoon. George helped him when  
they were hurt and to show his gratitude  
he gave us the Silver Ware  
Thurs 21<sup>st</sup> This morn finished jacking away then made

Lug 120. 34<sup>1</sup> shirt for Geo. Have had but little work  
are getting along very slowly. We have very  
pleasant, and good officers the best we  
have had this voyage. Steward, has been up  
part of the day but is hardly able to be  
out yet.  
Friday 22<sup>nd</sup> The Steward got up last night about  
eleven o'clock and asked the Capt. why  
Sat 31. 40 he could not sleep and wanted him to  
Lug 118. 37 give him some Quinine George gave him  
some but he would not go back to his room he  
has drunk so badly he has the Delirium  
Tremens. declared that there was the

or three of the men who were going to kill him, and he begged the Capt not to let them have him. Mr Rice saved him and got up and tried to get him to go to his room but he refused, and kept calling to me to protect him and not let the men kill him. I got up and talked to him some and Mr Rice and the Capt finally got him to his room and locked the door that comes into the Cabin and set one of the Boatstewards to take care of him. It excited me so I slept but little the remainder of the night. It seems very sad to see a young man well educated, yet degraded to such a state by strong drink. He has not been on duty today. I made some bread, and the Cabin boy has done the rest of the work. We still have very little wind are going along very slowly. I have been working on George's shirt.

Stewart still continues crazy. has not slept. Leo has been giving him everything he could think of but nothing seems to do him any good. This morn he came down into the Cabin and he was looking for the Steward. He came down the second time and said he wanted the Capt to give him the list of names and he changed his name when he ran away from home and one of the foremast hands said the Capt had to let him get himself wound up by saying the reason he came down he thought the Capt wanted him to come down and take a drink he seems harmless but it is impossible to tell what form the disease may assume and it makes me very nervous.

This morn I made mine mince pie's dip  
and a half doz sugar cookies and few  
loaves of bread. This afternoon here finished  
George shirt.

Sun 24<sup>th</sup> The still here very pleasant weather with

watch him constantly.

Monday 25<sup>th</sup> Have done a large washing and made  
up boxes of bread and two jars of  
Sut 27. 16. biscuit for the cabin table. The Sturges

eve and has slept the most of the  
time since tonight. I hear that he seems  
quite rational. We sighted Guadalupe  
Island this afternoon. We have a little  
more wind tonight.

- Thurs 28<sup>th</sup> This is Thanksgiving day throughout Massachusetts and I feel that it should be so with us although unfortunate the past year in some respects, yet our lives and health are still spared and we have many things to be very grateful to our Heavenly Father for. This PM about half past three raised 3 sperm whales going very fast could not gain on them with the ship so lowered two boats chased until dark, just before leaving them to return to the ship got quite near them but it been earlier think we must surely have had one. I have commenced making two old dresses into one.
- Friday 29<sup>th</sup> This morning early raised the whales again going very fast and we had not a breath of wind. immediately after breakfast went three boats chased until dark. but could not gain on them. With a good breeze there would have been a good chance to have got one. There was five large whales. Sighted Margarita Island today. I have been sewing on my dress here finished the skirt and over skirt. Thermometer stood at 50° in <sup>air</sup> room.
- Sat. 30<sup>th</sup> Have had another lovely day but very warm. Therm. stood at eighty four in the shade. Have had but very little wind. I have cut and basket my jacket like my dress here.

Friday 6<sup>th</sup>

Have been working ~~anchors~~ Maria Islets  
all day with very little wind. Finally  
the wind died away and left us alone  
the two larger Islets becalmed. So  
Anchored in seventeen fathoms of water.  
Saw a sail. I have been trying to work  
my sewing machine but again failed to  
make it work.

Sat 7<sup>th</sup>

Lost anchor ran out west down toward  
the Islets sent Mr. Rice ashore  
to see if he could get wood. Found  
only a few Spaniards on shore who  
could not speak a word of English and  
he had no one with him who could  
speak Spanish. There was a quantity of  
~~wood~~ corded on the shore but had been  
out so long it was rotten. Mr. Rice  
thought it not fit to burn or burn  
it was full of Guano's Lice. Centipeds  
etc. Saw no place where we could get  
wood by cutting it ourselves without  
going half a mile back from the shore  
and without a team to move it to the  
shore it would take too long to get it.  
Went to the other Islets sent Mr. Rice in  
there but there was no wood to be had so we  
are now bound to Anchorage Bay.

Sunday 8<sup>th</sup> This morn lighted Cape Arcuantes, and have  
 been all day working up the Bay and  
 at seven o'clock have just dropped  
 anchor. Sent Mr Rice on shore and of his  
 dinner and he has not yet returned.  
 Monday 9<sup>th</sup> Mr Rice returned about ten o'clock last  
 eve. he found a settlement where we  
 can get much water. Beef chickens &c.  
 on the opposite side of the harbor this morn  
 took up anchor and are now anchored  
 near the mouth of the river. Several canoes  
 have been off bringing a few chickens  
 &c. &c. that they have exchanged with  
 us for cloth. have engaged water and  
 water. and they have commenced cutting  
 the wood. A little has been seen ashore with bright  
 Tuesday 10<sup>th</sup> More canoes have been alongside. We  
 have bought several more. Sent the raft  
 for water and the packs are all full but  
 cannot get them off until high water.  
 I went on shore a little while. this after  
 noon. Saw Alligators for the first time  
 also Guano's. It is a pleasant place if  
 well taken care of but at present it  
 certainly looks like anything but living.  
 children, Hogs. Chickens. Turkey cats &  
 dogs all seem to live together as  
 one family. It is almost equal to the  
 happy families to be seen at San Francisco.  
 in Woodward's Gardens. Sent the boats on  
 shore again tonight after the water but  
 they could not get it and the reef.  
 Wednesday 11<sup>th</sup> Got the water on board this morn and  
 have been getting wood on board this  
 afternoon. but as it can only be brought  
 at high water we get along slowly. Many  
 canoes have been off

Thurs 18<sup>th</sup> We expected to get Charles tonight but cannot as the wind has not been brought off. They have got it out and Capt has concluded to wait until Sat morn. Several of the men have been taken sick today appear to have the measles. We have got several thousand oranges. a quantity of chickens Hage Turkey.

Parrots. The bunches of Banannas, the meat will be brought off tomorrow. Capt has also bought a Cow and calf for fifteen dollars. Cow gives much fine yts of milk for day. This morn went out fishing a little while but caught nothing. Friday 19<sup>th</sup> We are now ready for seed will come as soon as the breeze comes along. There are five men sick in the forecabin and the cabin boy. The boy has the measles I am very sure. but I have not seen the others but Capt thinks they also have the measles. I feel very thankful that I have not them so I can take care of Freddie as he will probably have them too. Mr Coppersmith is also sick today but as he has had the measles thinks his sickness occasional & being out in the sun so much.

Sat 20<sup>th</sup> We took anchor at three o'clock. The wind had a little breeze until about ten. Since then have been drifting in shore, and sea has been very rough. met Morris but just before dark had a little breeze if it lasts only last a few hours. We will be all right. Saw a large school of Humpbacks however they could not strike. I have finished two Shippers.

Mrs. Pelissier, stopped at the Bethel

service on the Mission. This eve was  
very fine. The decorations were a  
little while. Mr. and Mrs. Black returned  
with her.

Sunday 21<sup>st</sup> The women went to Bethel. The services  
were very interesting. Each Sunday School  
class had a part of the Christmas  
services and the emblems. The class  
had the Shield of Truth. Mrs. Livers  
the sanctuary with the words Gospel of  
peace inscribed on them. Mrs. Carter  
class the Breastplate of Righteousness.  
Edith Darners the Beloved Salvation.  
Mott Cato class the Sword of the Spirit.  
These presentations are after the order  
to the Whetman, with appropriate verses  
recited in concert by the class to  
whom they belonged. The song for the  
young children of the church. Then came  
the Emblem. The mother Helen Whiting class  
with the Shield of Truth. After the song  
came. Mrs. Carter class presented the  
Cross with the word Faith inscribed  
on it. Darners class had an answer  
with the word Hope. Mrs. Whiting class  
the Heart with Charity inscribed.  
The infant class sang Hark the Lillies  
whisper be. and presented a wreath  
of Lilies. Mr. Whetman delivered a short  
lecture and replied appropriately to  
each class. After singing again the  
Darners delivered a short address followed  
by prayer and singing. All passed off  
well. and the service was very

beautiful and impressive. This will  
probably be our last Sunday evening  
for a long time. My last watch is over  
us and bring us safely to our destination.  
Mrs. C. Wright called this  
afternoon to bid me good bye. This evening  
we have been to the dedication of the  
Gloom. J. L. Waterhouse has just been  
settling here he will settle there this  
evening and intends to have a service  
there every Sunday and we would  
love. Mrs. Black lived with us and  
went with us this evening. Mr. Whitman  
also called this afternoon.

Sunday (24th) The week today since I last opened my

The ship bilged yams. Sally and I  
was quite seasick for several days.  
Friday and Sat. was able to do a little  
packing away. We have had very disagreeable  
weather all the week. But we had a  
pleasant day. I have been suffering from  
indigestion and great pain in the stomach

Sun 16. 40<sup>th</sup> we have had a pleasant ride since  
we left Honolulu we are 135 miles from  
Honolulu.

Sat 10<sup>th</sup> Arrived off Whetstake about four P. M.  
 found it to be their Sunday & came close  
 off to us. and we sent out on shore  
 what we wanted. The Island looks very  
 pretty from the sea.

Sunday 11<sup>th</sup> Canoes came off this morn. with six or  
 seven to fill with water. and are also  
 getting wood on board. Mr. and Mrs. Reyle  
 the English missionaries, invited me to  
 come on shore and pass the Sabbath  
 but I prefer to go tomorrow.

Sunday 12<sup>th</sup> This morn about eight o'clock. Went on  
 shore. There are fifteen hundred inhabitants  
 on the Island. and at least a thousand  
 were on the shore to see us. They  
 filled the boat leading to Mr. Reyle's  
 house. and as we went up the natives  
 for ice, took little whips and whistles each  
 way to make room for us to walk.  
 and all that could get to the edge  
 of the boat held their hands to shake  
 hands with us. Sometimes they extended  
 their hands and caught mine at the same  
 time. There are six hundred children who  
 attend school regularly. Mr. Reyle has charge  
 with seven native teachers under him  
 he is also assisted by his wife and daughter.  
 Since they gave us a very cordial welcome  
 and we enjoyed the day very much. We  
 visited the school house and church. Large  
 buildings built of Adobe with thatched  
 roofs. The pillars and rafters all covered  
 with cloth made from the mulberry. There are  
 painted with black figures. We stopped in to  
 about four. and when we came out  
 a number of curiosities presented by the natives.

June 13<sup>th</sup> We left Wharfedale about five o'clock  
 night and made the Island of Rarotonga  
 about noon but for the mist  
 as it is not clear down over the  
 our charts it took us all the afternoon  
 to beat up. We got twelve Beat holes  
 at about 10<sup>th</sup> P.M. water. Chickens ducks  
 Eggs. Pine Apples Bananas Coconuts  
 Breadfruit, &c. Isaac a native preacher came  
 off on board & high tonight. said we  
 could get Sweet Potatoes, and Coffee here.  
 They seem quite disappointed to find so  
 much fruit on board. We have made  
 arrangements to go on shore tomorrow  
 Wednesday but on shore here after seven this  
 morning. Just before leaving we got a note  
 from Mr. Boobie a young & stout man  
 saying he would go with us to the  
 Midway about eight miles from  
 here and show us the way. I was  
 quite surprised to find a little doll  
 ready for me. I had a nice knife that  
 belonged to Isaac's wife and that she  
 never allowed any one else to ride on  
 I considered myself very fortunate. Mr.  
 Boobie met us at Isaac's house  
 a native went on horseback and took  
 Lizzie. another native by carrier and  
 Latchel. Isaac also went with us as  
 far as the Knips. Where we stopped to  
 trade for Sweet Japanese Coffee. some  
 arrangements to have it sent on board  
 today. We then went on stopped at  
 a cotton factory where Mr. Boobie was  
 having cotton ginned. It was the first

where we were cordially welcomed by Mr

It is very pleasant on this Island and  
I wish we could remain long enough
